

« n+i » Network Engineering Institute(s)

PROFILE

The «n+i» Network is made up of more than 70 prestigious «Postgraduate» French engineering institutes.

The Network trains highly qualified, multilingual engineers who can lead effectively on international projects in a multicultural environment.

The master's degree programs cover all fields of science and engineering—including agronomy, agri-food, biotechnology, chemistry, physics, mechanics, electronics, computer science, aeronautics, environment, Mathematics and civil engineering. In 2-year study, students earn either a master's degree or a diplôme d'ingénieur (master's degree in Engineering).

The «n+i» Network offers three "success packages" for international students in France. The packages are:

- Culture (assistance, welcome upon arrival, lodging and transfer) - PIC
- Language (course in French language, lodging in family home) - PIL
- Academic Methods (a semester-long introduction to scientific methods in the engineering school under the guidance of faculty and student mentors) - PIM

A single online application form is used to apply to the network's institutes. Visit www.nplusi.com.

Aid and scholarship information is made available to students upon receipt of their application.

Main programs of study

- New technologies
- Sciences (mathematics, chemistry, physics)
- Life sciences (environment, biotechnologies)
- Engineering

Research

After earning their master's degree, students may pursue doctoral studies in one of the 300 research laboratories operated by institutes of the network. Those labs cover every imaginable field of science and engineering.

Strengths

Master's degrees are available in every aspect of science engineering:

- Mechanical, industrial, thermal, civil, electrical, and chemical
- Electronics, electrotechnics, robotics, embedded systems, mecatronics
- Applied mathematics, image processing, computer science
- Agronomy, food industry, food safety, biology, biotechnologies
- Chemistry, applied chemistry, materials, applied physics
- Aerospace, aeronautics, transportation, automotive

Location

The schools of the Network are based in 40 French cities, including Paris, Toulouse, Nantes, Bordeaux, Lille, Marseille, Lyon, Montpellier, Strasbourg, La Rochelle, Rennes, Saint Etienne, Limoges, Metz, Clermont-Ferrand and Nancy.

IDENTITY FORM

www.nplusi.com

| | |
|--|--|
| Precise name of the institution → | « n+i » Network Engineering Institute(s) |
| Type of institution → | Consortium (schools of engineers) |
| City where the main campus is located → | Paris |
| Number of students → | 30 000 |
| Percentage or number of international students → | 15 % |
| Type and level of qualifications awarded → | National degrees: • Master's degree in Engineering (diplôme d'ingénieur) • Master's degree |
| French language courses → | Yes (PIL) |
| Programs for international students → | Yes (PIM) |
| Programs in English → | Yes for some programs |
| Postal address → | Réseau « n+i » : 79 avenue Denfert-Rochereau - 75014 Paris - France |
