The Université Paris-Saclay gathers 18 higher education and research institutions:
- AgroParisTech
- CEA
- CentraleSupélec
- CNRS
- Ecole Polytechnique
- ENS Caen
- ENSA ParisTech
- ENSTA ParisTech
- IETR
- IRISA
- INSERM
- Institut d’Optique Graduate School ParisTech (IOGS)
- Institut des Hautes Études Scientifiques (IHES)
- Institut Mines-Telecom (Telecom ParisTech & Telecom SudParis)
- ONERA
- Université de Versailles Saint-Quentin-en-Yvelines
- Université Paris-Sud

Université Paris-Saclay in figures:
- 60 000 students (12% international)
- 11 000 researchers and professors
- 300 research units
- 8 000 publications per year
- 15% of public research in France
- 123 ERC grants
- 20 doctoral schools
- 6000 doctorates (45% international)
- 15 000 Master students (20% international)

Main programmes of study
49 tagged Master’s degrees organized into 8 schools:
- Biodiversity, Agriculture and Food, Society and the Environment
- Biology, Medicine, Pharmacy
- Law and Political Science
- Economics, Social Sciences and Management
- Humanities
- Engineering, Information Science and Technology
- Sport Sciences and Human Movement
- Basic Sciences

A unique doctoral studies programme: the Université Paris-Saclay is home to 10% of doctoral candidates in France.

A single doctoral thesis charter

20 Doctoral schools

Research
The 300 research units at Université Paris-Saclay are organized in 10 thematic departments:
- Mathematics
- Life Sciences
- Physics of Light and Matter
- Physics of the Two Infinites
- Geosciences and Astrophysics
- Chemistry
- Humanities and Social Sciences
- Electrical, Optical and BioEngineering
- Mechanical, Energy and Process Engineering
- Information Science and Technology

Several key initiatives, together with strategic science and equipments projects (« laboratoires d’excellence » and « équipements d’excellence ») within the university and interdisciplinary PhDs, represent an ambitious showcase of our research potential.

The research from the Université Paris-Saclay:
- 11 Labex - Laboratories of excellence
- 12 Interdisciplinary Flagship Projects
- 12 EquipeX - the best of scientific equipment
- 1 ITE - Institute of Energetic Transition
- 2 IDEFI - Initiative for Excellence in Innovative Training
- 1 IRT - Institute for Research and Technology

Strengths
Université Paris-Saclay is located in one of the largest economic and private research areas in Europe. It operates in an environment conducive to producing innovation and to the development of industrial activity.

Université Paris-Saclay has implemented a series of mechanisms and projects to help speed the transformation of research results into innovations with high socio-economic impact:
- Incubator networks
- Network of fablabs and Innovation labs
- Rapid prototyping laboratories
- Enroute funding chain, from proof of concept to prototype
- Joint development with the campus industrial partners
- Demonstration platforms
- Education courses and support programmes for student entrepreneurs
- Company for the Speeding-up of technology transfer (SATT)

Location
Located between Paris and Versailles, Université Paris-Saclay is in the heart of a major territorial development project conceived for a threefold development of business, research activity, and quality of life for residents.

It is mobilising industry players on both Eissone and Yvelines departments to stimulate growth around strategic sectors (aerospace-defence-security, energy, mobility, ICT, health).
