

NOUVELLE-AQUITAINE

'BIENVENUE EN FRANCE' LABEL

EIGSI

ECOLE D'INGÉNIEURS GÉNÉRALISTES

The 'Bienvenue en France' Label is awarded to higher education institutions that develop quality-driven services for international students. Such services include comprehensive information, orientation and welcome services, tutoring, campus life, as well as post-graduate support. In addition, a proven commitment to sustainable development and social and environmental responsibility must be provided.

EIGSI has trained general engineers creation in 1901. The school welcomes 1,250 students studying for first degrees and following apprenticeships, at its 2 campuses (La Rochelle, Casablanca) and benefits from a network of more than 8,500 graduates. Teaching is based on a 3-year common core course: basic sciences (mathematics/ sciences physiques), engineering sciences (mechanical, computing, electrical, automatic, energy, etc.), business organisation and management, human sciences (management, communication) and languages (two languages compulsory). In the 4th and 5th years, students choose their career option by following classes in a specific area of expertise (10 majors available).
