The "Bienvenue en France" label is awarded to institutions offering international student services that meet standards of quality pertaining to information, reception upon arrival, study aids, campus life, and alumni networking. École Nationale d'Ingénieurs de Tarbes (E.N.I.T.), was awarded the "Bienvenue en France" label at level 2 for four years on .

The National Engineering School of Tarbes (ENIT) is a 5-year public school that has been training general engineers in the fields of Mechanical Engineering and Industrial Engineering for over 50 years.

ENIT offers its students a 5-year training program (divided into 10 semesters) of high quality, which focuses on what companies needs. The training cycle includes three periods of immersion in an industrial environment (two internships and a final year project) which constitute 30% of the total volume of the curriculum.

90% of the school's graduates find a job within six months of completing their studies. They work in a wide variety of sectors such as aeronautics, automobile and railway construction, mechanical and electrical design, construction and public works, information technology, the environment, etc.

ENIT is a member of the Tarbes Pyrenees University Center (CUTP) and has been attached to the National Polytechnic Institute of Toulouse (INPT) since 2002.

WELCOME

ENROLLMENT

- Application timeline and procedures <https://www.enit.fr/en/international-exchange.html>
- Online application <https://www.enit.fr/en/international-exchange.html>
- Connection to the "Etudes en France" platform <http://pastel.diplomatie.gouv.fr/etudesenfrance>
