The "Bienvenue en France" label is awarded to institutions offering international student services that meet standards of quality pertaining to information, reception upon arrival, study aids, campus life, and alumni networking. ESILV École supérieure d'ingénieurs Léonard-de-Vinci Paris, was awarded the "Bienvenue en France" label at level 2 for four years on.

Studying at ESILV means choosing a general engineering school with a focus on the digital world, new technologies, hybridisation and innovation. The course provides countless opportunities to develop and broaden the scope of your learning: 11 majors, 23 double degrees including an Engineer-Manager degree with EMLY, a minimum of 13 months of internships, and more. Throughout their studies, students work on projects that reinforce and structure their learning and develop their skills as future engineers: Imagination and eXploration Project, General Digital Engineer Project, Industrial Innovation Project, business challenges, etc. Innovation is at the heart of teaching and research at ESILV. As well as the DeVinci Research Centre (DVRC), students have access to a modern infrastructure equipped with the latest technology (Bloomberg Suite, Fab Lab, DeVinci Innovation Centre (DVIC), technology laboratories, etc.). They learn by experimenting with innovative technology projects. ESILV's students' success does not depend solely on the quality of their scientific, technical and vocational training, but also includes a very strong human dimension through inter-school sharing, soft skills training, sports activities, clubs and societies. Each student is provided opportunities to grow as a person, to develop and apply new people skills, and to express their personality and realise their potential.

WELCOME

ASSISTANCE WITH ADMINISTRATIVE MATTERS AND WITH ACADEMIC REGISTRATION

- ✓ Administrative matters ^{1,3,4}
- ✓ Student life ^{1,3,4}

HOUSING

- ✓ Specialized housing services
- ✓ Information on housing (guide, websites) Student housing platform dedicated to ESILV
