ACADÉMIE INTERNATIONALE DE COUPE DE PARIS

L'ÉCOLE DE MODE DES ARCHITECTES DU VÊTEMENT

AICP

ACADÉMIE INTERNATIONALE
DE COUPE DE PARIS

Founded in 1830 by a syndicate of artisan tailors, the AICP is specialized in teaching technique excellence via its own clothing making methodology (Vauclair-Darroux) and offers a wide range of technical apparel design programs to train future fashion and clothing professionals.

The AICP specializes in the technical aspects of clothing and fashion in menswear and womenswear, couture, luxury, sportswear, lingerie, or custom-made pieces.

◆ MAIN PROGRAMMES OF STUDY

You can join the AICP after obtaining a high school diploma (general, technological, or vocational) or any other equivalent or higher degrees.

Admission to the AICP is based on motivation interview and entrance test.

- Foundation Year: This program provides training in sewing basics and clothing assembly and fabrication and is the fast track to AICP's advanced technical apparel diplomas, while allowing students to discover the IRL true-to-life working conditions of fashion houses and brands.

- International Technical Apparel Designer: This program allows you to discover the technical apparel design job role and to acquire the necessary knowledge and skills to succeed in this highly in-demand career of the future in all sectors of the clothing industry (luxury, ready-to-wear) and to master the different pattern drafting techniques (draping and flat pattern cutting).

- Fashion and Technical Apparel Designer: This program provides the knowledge and skills in creative technical apparel design while developing a transversal vision in line with the evolution of modern-day fashion houses. This program allows you to unleash your creativity by crafting your own garments. The students will also acquire a global understanding of the fashion and technical apparel designer job categories.

Finally, simulating the launch of a collection will allow students to put into practice the necessary steps and phases to succeed in this domain.

The AICP also offers short training courses : Draping, Flat pattern cutting, Alteration, Gradation, CAD Lectra and Clo3D. AICP also collaborates with companies for consulting missions and continuing education.

◆ STRENGTHS

- A one-of-a-kind school: the only school entirely dedicated to the technical apparel design professions since 1830.
- A school which is recognized and admired by fashion industry professionals
- A team of expert professors
- AICP's unique Vauclair-Darroux methodology
- A human-sized school
