Founded in 1903, TBS amongst the prestigious 1% of business schools with the “triple crown” of international accreditations: AACSB, AMBA and EQUIS and proud member of the French Conférence des Grandes Écoles.

Located in 5 dynamic regions TBS leverages its research and innovation to train women and men through lifelong learning leading them to develop into collaborative, agile and responsible decision makers. TBS provides students with analytical skills, a professional network and innovative pedagogical approach coupling theoretical contributions and project-based learning.

TBS meets the most demanding international academic standards and continues to engage the industry leading to rapid student employment upon graduation.

**MAIN PROGRAMMES OF STUDY**

**Bachelor in Management:** three-year program with a highly professional and intercultural vocation, the aim of which is to equip future graduates with managerial skills adapted to national and international economic requirements.

**Master in Management:** two-year program which trains expert managers, for all businesses, anywhere in the world. It is characterized by its academic rigor and coherent structure, allowing a gradual acquisition of skills with an international dimension.

**Masters of Science (MSc):** 18 month-long programs positioned in constantly evolving functional or sectoral areas. The objective is to train young graduates or experienced professionals by providing high-level specialized knowledge and skills enabling them to gain access to, or evolve in, high value-added occupations, enabling them to match their ambitions with current and future business needs.

**Aerospace MBA:** delivers a world-class education effectively and conveniently for experienced managers looking to develop their international management competencies and leadership in aerospace.

**DBA:** gives decision makers the tools to create a hypothesis and through the scientific method, analyze a problem in its entirety. Cultivating innovation and originality, experienced managers learn how to create a competitive advantage.

**RESEARCH**

With more than 20 years of research and a team of 105 researching professors, TBS publishes in elite academic journals, carries out research with partners from KPMG, Airbus Group and European Commission and collaborates internationally with Australian, Canadian, German and Italian academics.

The TBS Research Center, groups together five thematic research laboratories:

- Accounting, Auditing & Performance Management
- Entrepreneurship & Strategies
- Finance, Economics & Econometrics
- Social & Innovation Marketing
- Work, Employment & Health

Supported by the aerospace industry, within the research center, we find the Sirius Chair which is devoted to law and management within the space sector.
