

EVRY-COURCOURONNES (40 MINUTES FROM PARIS)

INSTITUT MINES-TÉLÉCOM BUSINESS SCHOOL (IMT-BS)

Institut Mines-Télécom Business School is the business school of digital intelligence, that belongs to the Institut Mines-Télécom, France's leading group of engineering schools.

IMT-BS trains innovative managers and entrepreneurs who are open to the world and who will guide organizations through the digital, energy and ecological, economic and industrial transitions that will be at the heart of tomorrow's society.

Ever since our opening in 1979, the School has kept a focus on the digital world. Today, we continue to offer our students a distinctive learning experience thanks to:

- Our renowned international expertise in digital and managerial transformations.
- The way managers and engineers successfully blend together, working and studying on the same campus.
- Public backing and small cohorts, meaning we are truly centred on our students and able to deploy a distinctive widening participation policy that opens our doors to the widest possible range of backgrounds.

◆ MAIN PROGRAMMES OF STUDY

- Bachelor in Management and New Technologies
- Master in Management (with specializations in international business, digital marketing, strategy, innovation, data analytics, information systems)
- Masters of Science (international business, data & digital information systems, management of innovation)

◆ RESEARCH

Research and innovation lie at the heart of IMT-BS commitment to boldness, excellence, openness and responsibility. Our faculty use their cross-disciplinary expertise to conduct conceptual as well as applied projects that significantly shape our understanding of or responsibility towards digital transformation, industry responsiveness to technological changes, managerial knowledge capital, and social involvement with new informational horizons.

◆ STRENGTHS

- A "Grande Ecole" school with international academic accreditations (AACSB, AMBA)
- Tech-oriented Business School with specializations in Information Systems, Finance, Marketing, Strategy and Entrepreneurship
- On-campus accommodation with 900 rooms offered to international students in priority
- High graduate employability and salary rate
- Shared campus, classes and group projects with an Engineering School
- Large alumni network (8500+ IMT-BS alumni and many more from the IMT Group)

◆ LOCATION

Our 6-hectare American-style campus is like a small town inside Evry, in the suburbs of Paris (approximately 40 minutes from the capital city). There's a wide range of facilities available for students: a gymnasium, 3 tennis courts, basketball, football, rugby, a climbing wall, a fitness room, beach volleyball, but also a bar where students can relax in the evening, a student foyer used for evening parties and also premises for each club or association
