◆ RESEARCH

ESPI is the only higher education school for real estate professions in France to have a research laboratory.

The ESPI2R laboratory (for "Research in Real Estate") is composed of about 40 associate professors divided into four departments: law, economics, management, urban planning.

The intellectual contributions of the laboratory enrich ESPI's programmes and consequently contribute to broadening students' perspectives.

◆ STRENGTHS

- A multilingual teaching staff composed of permanent teachers, associate professors and real estate professionals
- Double degrees in France and abroad

- Internationalization of the school: student mobility, international expansion, networks, international academic partners, research
- Personalized support from the international relations and corporate relations departments
- Partner companies in various real estate sectors
- A placement rate of over 90% across all programs
- A dynamic student life
- A dedicated service for students with disabilities
- A network of 13,000 Alumni worldwide

◆ LOCATION

ESPI delivers the same degrees across its eight campuses, including seven in France: Bordeaux, Lille, Lyon, Marseille, Montpellier, Nantes and Paris, and one abroad, in Montreal (Canada).
