

LIMOGES

# GROUPE 3iL

To meet the growing demand for high qualified employees in the IT sector, Groupe 3iL has developed high-quality programs taught in 2 different schools: 3iL Ingénieurs and 3iL Academy. In addition to being accredited by the French Ministry of Higher Education and by the French Engineering Commission CTI (Commission des Titres d'Ingénieurs), Groupe 3iL has been awarded several labels such as EUR-ACE, CNCP and AFNOR.

## ◆ MAIN PROGRAMMES OF STUDY

### 3iL Engineers: Preparatory class (2 years)

A program dedicated to science and computer science, for students who have graduated from high school (scientific profiles). This program grants an intermediate degree accredited by the French Ministry of Education (Licence Science/Info-L2). International path and possibility to get a double diploma (Bachelor of Science)

### 3iL Engineers: Engineering program (3 years)

A program combining 3 areas of expertise: Engineering Sciences, Computer Science and Project Management. For students from our preparatory class and students with sufficient knowledge (at least 2 years of higher education studies) in Engineering Science or Computer Science. Options amongst: Web and Mobiles Technologies, Embedded systems, Robotics, Professional Java, Cyber security, Video Game development (taught in English)...

### 3iL Academy: Bachelor program (1 year)

This program trains students to design and apply IT solutions such as networks, software, web and mobile solutions. This Bachelor program offers courses providing indepth knowledge in e-health, Big Data, Professional Network, Professional Web

### 3iL Academy-Master of Science with a concentration in IT Project Management (2 years)

A program dedicated to IT Project Management. It offers courses providing indepth knowledge in Software Development, Web & Mobile

Applications, Interoperating Networks, Virtualization & Cloud.

## ◆ RESEARCH

Our research programs are conducted in cooperation with the **XLIM research laboratory of the University of Limoges**. We offer two Masters of research in cooperation with the University of Limoges (The Master **CRYPTIS** on Data Security and the Master **ISICG** on computer generated images). Students from those Masters programs can pursue their studies and prepare a PhD.

## ◆ STRENGTHS

- 3iL Ingénieurs and 3iL Academy are schools on a human scale, offering a lively and friendly environment for studies
- Many companies participate to our study programs
- Our degrees meet the requirements of the firms in the IT sector
- 75% of our students find a job before their graduation
- Almost 100% of our students are hired 3 months after their graduation

## ◆ LOCATION

Limoges: A beautiful historical city with many parks, gardens and countless opportunities for outdoor activities. **Limoges is safe and is regularly ranked amongst the French cities with the best quality of life.** Accommodation in Limoges is cheap and easy to find. This city is located in the heart of France, at 3 hours by train and 1 hour by plane from Paris.
