SUP'BIOTECH

Sup'Biotech: The School of Biotechnology Engineers

Sup'Biotech is a private engineering school located in the Paris metropolitan area, specializing in the diverse fields of the Biotechnology sector. Sup'Biotech is part of the IONIS Institute of Technology's cluster. IONIS is France's leading private higher education group: its technology cluster also includes EPITA and Epitech, schools specializing in computer sciences and information technology, as well as IPSA, an aeronautics engineering school.

◆ MAIN PROGRAMMES OF STUDY

Biotechnology
Biology
Life Sciences

◆ RESEARCH

CELLTECHS

From stem cells to mini-brains

LRPIA

Using the beneficial roles of micro-organisms for agri-food engineering

PBS

Answering today's and tomorrow's interrogations:

Social Science & Biotechnologies

BIRL

Using bioinformatics to model biological mechanisms

◆ LOCATION

Sup'Biotech
66 rue Guy Môquet,
94800 Villejuif, France

IDENTITY FORM

- ◆ **Precise name of the institution**
Sup'Biotech
- ◆ **City where the main campus is located**
Villejuif
- ◆ **Number of students**
700
- ◆ **Percentage or number of international students**
40
- ◆ **Type and level of qualifications awarded**
Engineering Diploma in Biotechnology
- ◆ **French language courses**
Yes - International students benefit from French as a Foreign Language Classes delivered by an Official Center labelled 'French Quality'.
- ◆ **Programs for international students**
Yes - International students can join Sup'Biotech from the 3rd year of the undergraduate program to the end of the Master.
- ◆ **Programs in English**
Yes - From the 3rd year, classes are taught in English.
- ◆ **Registration fees/year (for information only)**
11680 euros
- ◆ **Postal address**
Sup'Biotech International
66 rue Guy Môquet
94800 Villejuif - France
