ENSEA is a French Graduate School in Electrical and Computer Engineering, Embedded Systems and Telecommunications. It counts more than 900 students (500 are graduate students) and 70 PhD students. High-quality training is led by 90 lecturers and professors and 180 visiting professors from industry. More than 200 companies are partners with us.

ENSEA has more than 130 partner universities worldwide and share 30 dual degrees. 100% of our graduated students have an international experience.

ENSEA is one of the first institution that has built an entire semester English-taught Engineering lectures with 9 American universities.

**MAIN PROGRAMMES OF STUDY**
- Power Engineering
- Communication systems
- Biomedical Engineering
- Embedded Systems
- Computer Engineering
- Mechatronics
- Network and telecommunications
- Multimedia Systems

**RESEARCH**
The two laboratories participate in numerous French (ANR) and European projects (PRCD). They are also well represented in the competitive centers (Sytem@tic, Mov’eo, Cap Digital...) and work with industrial companies. 60 teachers and 50 PhD students

- ETIS : Signal processing and information systems ETIS gathers researchers from ENSEA, UCP and the French National Research Center (CNRS) and is composed of four research groups. www-etis.ensea.fr
- Quartz gathers researchers from IPGP (Institut Polytechnique Grand Paris) composed of ENSEA, Supmeca and EISTI. This laboratory was created in 2015 in order to focus on multidisciplinary fields, dealing with complex systems.

**STRENGTHS**
ENSEA trains engineers in the fields of electronics, computer science, automation, and telecommunications. It also hosts two research teams. Agreements with universities around the world enable international students to attend ENSEA for an internship, for a semester, or for the 2 years required to earn a degree in electronics engineering.

**LOCATION**
ENSEA is just half an hour from Paris in Cergy, Val d’Oise, a university town at the center of a dynamic economic cluster.

**IDENTITY FORM**
- Precise name of the institution: Ecole Nationale Supérieure de l’Electronique et de ses Applications
- Type of institution: Public
- City where the main campus is located: Paris (Cergy Pontoise)
- Number of students: 900
- Percentage or number of international students: 30%
- Type and level of qualifications awarded: Diplôme d’ingénieur. Other diplomas: Master of Sciences in Electronics, Signal Processing and Communications and Networks.
- French language courses: Yes - ENSEA offers French Language & Culture lectures to international students.
- Programs for international students: Yes - Program FAME (French American Exchange program), Summer Program with University of Michigan
- Programs in English: Yes - Program FAME is about 10 courses taught in English for Undergraduate Students. Since 2007, the Program has welcomed about 10 students per semester (Spring).
- Registration fees/year (for information only): N+i : 3770 euros, FAME : 3500 euros
- Postal address: ENSEA 6, avenue du Ponceau - CS 20707 Cergy - 95014 Cergy Pontoise Cedex - France
