ESTP

GRANDE ÉCOLE D'INGÉNIEURS DE LA CONSTRUCTION

estp
CONSTRUCTEURS D'UN NOUVEAU MONDE

The Ecole Spéciale des Travaux Publics, du Bâtiment et de l'Industrie (ESTP) was founded in 1891 as a private higher education institution and officially recognized by the State in 1921. Today it has the legal form of a non profit making association with a status of public interest by the French government. ESTP Paris is an associate member of the higher education and research cluster (COMUE) UNIVERSITE PARIS EST. It also belongs to the 'n+i network'.

Distinctive features are: close links to industry, strong international relations, emphasis on equal opportunities and sustainable development.

◆ MAIN PROGRAMMES OF STUDY

The ESTP offers a large variety of programmes at different levels :

- a three-year degree in construction site management "Conducteur de Travaux"
- a three-year degree in Construction Management "Bachelor Manager de la Construction"
- a three-year degree - "Bachelor Architecture and Construction"
- "diplôme d'ingénieur - master's degree"
- Various Continuing Education programmes for adult professionals: 7 one-year professional specializations after a master's degree leading to an institutional diploma "mastère spécialisé" in topics linked to construction, real estate, BIM, ...
- PhD degrees
- International programmes

◆ RESEARCH

The ESTP research activities are carried out in the framework of the "Constructibility Research Institute".

'Constructibility' being defined as the "Study to optimize, right from the design of a project, the best construction or rehabilitation strategy for the civil engineering works or buildings. It takes into account the construction data and parameters and past experience to achieve the objectives and optimize the means, the costs and the delays. « To do more with less »." ESTP doctoral students are supervised within the CRI

by teacher-researchers and enrol in partner doctoral schools: in France, in particular SIE, which awards a doctoral diploma conferring the grade of Doctor of Civil Engineering, or in a foreign university.

◆ STRENGTHS

- In France, the ESTP trains the biggest student flow for the construction industry (45000 alumni, 2600 students)
- Intensive courses and weekly refresher courses in French as a foreign language
- An international desk for administrative and pedagogical assistance
- An international student association (HiStudent) that assists foreign students with a buddy system
- Housing and student restaurant on campus or very near

◆ LOCATION

The ESTP is divided into 4 campuses :

Campus of Cachan : its historical campus is a seven hectare campus located at Cachan, in the inner suburbs of Paris. The Cachan campus is on the direct line of express trains, the «RER B», which directly connects the Roissy Charles de Gaulle and Orly airports.

Campus of Dijon : Dijon is located in the centre of the Paris-Lyon-Strasbourg triangle and boasts excellent road and rail links. It is 90 minutes from Paris and less than 2 hours from Lyon. It offers easy access to the Jura Mountains and the Alps.

Campus of Troyes : Located just 90 minutes from Paris by train, Troyes is a town on a human scale which offers an excellent quality of life while remaining affordable.

Campus of Paris : for the Continuing Education programmes only, the campus of Paris offers a space spanning over 1,000m² right in the heart of the Opéra/Saint-Lazare district, which is central and accessible.

IDENTITY FORM

◆ **Precise name of the institution**
ESTP

◆ **Type of institution**
Private, non profit making association, of general interest, recognized by the state, associate member of Université Paris Est.

◆ **City where the main campus is located**
Paris (Cachan)

◆ **Number of students**
2 600

◆ **Percentage or number of international students**
25%

◆ **Type and level of qualifications awarded**
3 year diploma - Bachelor – Master's Degree - diplôme d'ingénieur (Master's Degree) - PhD - professional specialization diplomas: mastères spécialisés - institution-specific certificates.

◆ **French language courses**
Yes - Weekly courses and intensive summer sessions of French as a Foreign Language for Engineers and scientists.

◆ **Programs for international students**
Yes - Curriculums in French:

- Bachelor Conducteur de Travaux (3 years in higher education)
- Bachelor Manager de la Construction (3 years in higher education)
- Bachelor Architecture and Construction (3 years in higher education)
- Diplôme d'ingénieur ESTP Paris (5 years in higher education - Master's level)

Curriculums in English:

- Civil Engineering (English-Taught program) (5 years in higher education - Master's level)

◆ **Programs in English**
Yes - Civil Engineering (English-Taught program) (5 years in higher education - Master's level)

◆ **Registration fees/year (for information only)**
Tariffs for 2024-2025:

- Three-year degree in construction site management (Cachan): 6 900 euros/year
- Three-year Bachelor degree in Construction Management (Cachan or Dijon): 7 600 euros/year
- Bachelor in Architecture and Construction (Troyes): 7 600 euros/year
- "Diplôme d'ingénieur" (Cachan, Dijon, Troyes - including Civil Engineering in Cachan only): 9 450 euros/year

◆ **Postal address**
28 avenue du Président Wilson, F-94234 Cachan, France
