- Graduate School of Engineering
- Established: 1885.
- Accredited by the Commission des Titres d’Ingénieur (national commission on engineering degrees) since 1935
- 2,400 students, 200 permanent full-time faculty, 350 adjunct and visiting faculty 3 sites.

◆ MAIN PROGRAMMES OF STUDY
Civil engineering - Chemistry and chemical engineering - Mechanical design - Energy, electrical and automated systems - Computer science and information technologies - Medical engineering and health - Technology, innovation, international management in the textile sector - Architectural engineering - Banking, finance, insurance - Mechatronics and robotics - Entrepreneurship - Industrial and logistical operations management - Smart Cities.

◆ RESEARCH
- L2EP, the laboratory of electrotechnics and power electrotechnics: HEI, Lille 1, ECL, and ENSAM.
- LGCE, the laboratory of civil and geo-environmental engineering: HEI, Lille 1, Artois, ISA, EMD.
- HEI maintains three research clusters: sustainable chemistry and health: electrical networks and smart transportation: innovative materials, as well as two integrated programs: energy, housing, and environment: and creativity and innovation.
- Research master in parallel with the fifth year and in-house doctoral program (in collaboration with other institutions).

◆ STRENGTHS
General professional training combining instruction in science, technology, and management. The curriculum includes a variety of internships, a rich array of student organizations, a humanistic approach, and a mandatory period abroad. Two student residence halls. A campus of 24,000 students. 100 international partnerships.

◆ LOCATION
Campus Lille (center city), Campus Centre Chateauroux 1 hour from Paris 1 hour from London 25 minutes from Brussels.

IDENTITY FORM
◆ Precise name of the institution
Hautes Études d’Ingénieur

◆ Type of institution
Private

◆ City where the main campus is located
Lille

◆ Number of students
2,300

◆ Percentage or number of international students
5%

◆ Type and level of qualifications awarded
Master of Science and Engineering

◆ French language courses
Yes

◆ Programs for international students
Yes

◆ Programs in English
Yes - Master of Science and Engineering (MSE) SMART CITIES

Registration fees/year
(For information only)
HEI1 and HEI 2: 3500 euros. HEI3: 7900 euros. HEI4 et HEI4: 8100 euros

◆ Postal address
13 rue de Toul - BP 41290 - 59014 Lille cedex
