Founded in 1893 and located in the capital of the French Alps, the Grenoble Institute of Technology (Grenoble INP) offers undergraduate and graduate programs in 22 engineering fields and maintains 33 world-renowned research laboratories. Its academic staff includes world-experts in numerous domains and its central location in a technologically rich European center creates a vibrant and international setting in which students and research can thrive.

**Main Programmes of Study**

- **6 engineering schools** who will face challenges in Micro and Nano technologies, Energy, Digital society, Environmental issues, Industrial applications: globalisation and innovations
  - Grenoble INP – ENSE3: Energy, water and the environment
  - Grenoble INP – Ensimag: Informatics, Applied Mathematics and telecommunications (a pioneer for high tech engineering education leading to a wide range of job opportunities)
  - Grenoble INP – Esisar: Advanced systems and networks (a cutting-edge comprehensive curriculum which covers electronics, computer engineering and embedded technologies)
  - Grenoble INP – Industrial engineering:
  - Grenoble INP – Pagora: Paper manufacturing, printed communications and biomaterials are at the heart of this school with a strong focus on quality, security and environmental management.
  - Grenoble INP – Phelma: Physics, Electronics and nuclear materials

**Research**

- 33 laboratories work today on tomorrow’s technologies in these key areas:
  - Energy
  - Environment
  - Information and communication
  - Materials
  - Micro and Nano technologies
  - Production systems

- It is a leader in research and development in France and takes part in world-renowned research centers such as Minatec, the first European innovation center in micro and nano technologies, in competitive clusters such as Minalogic (micro and nano technologies, embarked software) or Tennerdis (renewable energy), 3 Carnot institutes (Future energies, Intelligent systems and software, Polynat), an advanced thematic research network (nanosciences and nanoelectronics), and a Technological research Institute for nanoelectronics.

**Strengths**

- 22 fields of study
- 12 international programs taught in English
- Strategic partnerships with world ranking universities
- 90% of the students are hired within 6 months of graduation
- Second ranking Engineering School in France
- 102 in the QS World University Ranking
- First place ranking in French Engineering schools in Innovation and research!

**Identity Form**

- Precise name of the institution: Grenoble INP (Grenoble Institute of Technology)
- Type of institution: Public
- City where the main campus is located: Grenoble
- Number of students: 5500
- Percentage or number of international students: 20%
- Type and level of qualifications awarded:
  - LMD, Engineering degrees, Master and Doctorate
- French language courses: Yes
- Programs for international students: Yes
- Programs in English: Yes
- Registration fees/year (for information only): Depends on the selected fields of engineering
- Postal address: 46 avenue Félix Viallet 38031 Grenoble Cedex 1
