

LYON

ISARA

Key figures: 130 permanent staff members - 330 external teachers and practitioners (academic and professional) 5 departments :

- Food Sciences
- Agroecology and Environmental Studies
- Department of Social Sciences
- Transversal Methods and Engineering
- International Relations

Over 950 students and apprentices - 4100 engineers have graduated since 1968. Engineering degree recognized by the French State and approved by the Engineering Diploma Commission (CTI).

◆ MAIN PROGRAMMES OF STUDY

- **ISARA Engineering Degree**, full-time student or apprentice or via continuing education
- **Engineering Degree / Master of Science (CGE)** with partner universities of Wageningen (Netherlands), Sao Paulo-Esalq (Brazil), Santiago (Chili), and Monterrey (Mexico).
- **European MSc (CGE) in Agroecology** with the Norwegian University of Life Sciences (Norway)
- **MSc (CGE) in Agroecology and Organic Agriculture** with Wageningen University (The Netherlands).
- **European MSc Sustainable Food Systems (CGE)** with several European universities (Belgium, Denmark, Germany and Romania).
- **Postgraduate diploma in Supply-Chain Management in Agrifood Industries (CGE)**
- Joint degree program with top flight **business schools** (KEDGE, ESSEC)

◆ RESEARCH

ISARA's targeted research activities are focused on two core areas of excellence : Agroecology and Sustainable Food Systems.

ISARA, in addition, organizes conferences on these subjects, given by internationally renowned experts, thereby serving a crucial role as an interface between specialists and the general public.

◆ STRENGTHS

ISARA is situated on the AGRAPOLE site, a pole of excellence specialized in life sciences within the unique Lyon-Gerland Biopôle cluster. On site, ISARA is surrounded by different professional regional organisations who advise and accompany actors in the world of agriculture and agribusiness. Together, they form a multi-faceted platform for education, advice and research on these crucial topics.

ISARA-Lyon has excellent facilities including:

- 9 technological and scientific laboratories
- 1 food technology platform
- 1 business incubator accompanying innovative entrepreneurs in the agricultural and food sector

◆ LOCATION

Lyon is the capital of the second most populated region in France, the Rhône-Alpes region, and is a hub of national and international exchange. More information on : <https://www.isara.fr/en/Study-at-Isara-Lyon/Student-life/Living-in-Lyon>

IDENTITY FORM

- ◆ **Precise name of the institution**
Institut Supérieur d'Agriculture et d'Agroalimentaire Rhône-Alpes
- ◆ **Type of institution**
Not-for-profit organization
- ◆ **City where the main campus is located**
Lyon
- ◆ **Number of students**
1170
- ◆ **Percentage or number of international students**
6%
- ◆ **Type and level of qualifications awarded**
- Engineering diploma recognized by French State (Ministry of Agriculture), and accredited by the Commission of Engineering Diplomas (CTI) - Professional Bachelors - MSc (CGE) - Post-master diploma (CGE)
- ◆ **French language courses**
Yes - 18h before the Fall semester - 1.30 to 3h/week during the whole year.
- ◆ **Programs for international students**
Yes - Academic exchanges at Master level (within the engineering program): 5 specializations: Agriculture and resource management - Food science - Agribusiness and Food - Territories & Sustainable development
- ◆ **Programs in English**
Yes - European Msc Agroecology
- International MSc Agroecology - Organic agriculture - European MSc Sustainable Food Systems International Summer School Agroecology - Academic exchanges
- ◆ **Registration fees/year (for information only)**
4,500 to 6 000€ per year according to the programme
- ◆ **Postal address**
ISARA - AGRAPOLE - 23 rue Jean Baldassini - F-69364 LYON CEDEX 07 - FRANCE
