

ISAE-SUPAERO AEROSPACE ENGINEERING

TOULOUSE

The Institute of Aeronautics and Space (ISAE-SUPAERO) was created in 2007 from the merger of two prestigious engineering schools: SUPAERO and **ENSICA.**

Supervised by France's Ministry of Armies, ISAE-SUPAERO is a higher and research institute dedicated to Aeronautics, Space, and related Sciences. Through core training, specialized programs, research, and continuing education, ISAE-SUPAERO trains top-level engineers and executives for the Aerospace and High-technology Industry. Considered as a Europe leader in Aerospace Engineering Higher Education, ISAE-SUPAERO counts more than 1,900 students, Master, Advanced Master and PhD students.

Located in Toulouse, the European Capital of Aeronautics and Space, the institute takes advantage of a unique ecosystem. One out of five European Master's degrees in Aerospace Sciences is delivered by ISAE-SUPAERO.

As a founding member of the Toulouse University, ISAE-SUPAERO is authorized by the French Ministry of Higher **Education and Research to grant doctoral** degrees through six accredited doctoral programs.

MAIN PROGRAMMES OF STUDY

- 1 graduate engineering degree ISAE-SUPAERO
- graduate degree in engineering per apprenticeship
- 1 Master of Science in Aerospace Engineering (in English)
- 15 Advanced Masters (13 in English)
- Short undergraduate programs (Spring Semester/Summer program)
- Professional certifications

- PhD

RESEARCH

ISAE-SUPAERO maintains an ambitious research policy based on a strong scientific influence and on constant strengthening academic and professional partnerships.

The institute's scientific policy is organized with strong links between training and research and strategic partnerships. It beneficiates from the expertise of major partners: ONERA, the CNRS, the CNES, and local and international partners in the industry.

STRENGTHS

- High scientific level programs
- Multidisciplinary training programs with a strong emphasis on project management
- Toulouse: European Aerospace Capital
- Well-rounded education that highlights the human side of engineering
- Close links with aerospace companies and the research community
- 25% of the European Space jobs located in
- A clear emphasis on international work, study, and research
- Some dynamic excellence scholarship programs provided by the Foundation ISAE-SUPAERO and our industrial partners
- Founding Member of the European University program: UNIVERSEH (European Space University for Earth and Humanity)
- Cutting-edge research equipments
- Numerous clubs and activities offered to
- An international campus with numerous sport facilities
- 6 student residences right on Campus with a priority access to our international students
- A campus of 22 hectares aside from the famous Canal du Midi
- Close to the city center (15 min by metro, bus or by bike)
- First student city in France

IDENTITY FORM

- Institut Supérieur de l'Aéronautique et de l'Espace ISAE SUPAERO
- An elite public institution devoted to science, culture, and
- ere the main campus is located Toulouse
- 1 900
- Percentage or number of international students
- Type and level of qualifications awarded Master of Science (MSc)
- Graduate engineering degree (ISAE-SUPAERO) Institution degree: Advanced Masters

Yes - All international programs integrate French language courses in the curriculum. It is very important for foreign students to be familiar with the French

language and culture.
Students are divided by level and take the French lessons on campus.

Yes - ISAE-SUPAERO has been awarded the Campus France «Welcome to France» Label with the maximum three stars level. This Label highlights the welcoming services for international students which range from quality and accessibility of the information, the range of programs provided, the teaching support, the campus housing facilities, the campus quality of life and the follow-up after graduation of international students.

The Toul'box service provided by the University of Toulouse is offered to our international students to help them with their arrival and administrative needs: booking a room on campus, opening a Bank account, buying a transport pass, help with the opening of social security and CAF accounts and more.

- Registration fees/ye
 - «Diplôme d'ingénieur»: 2 800 to 4 800 euros
- Master of Science (MSc) : 4 950 to 14 600 euros Advanced Master: 11500 to 22 500 euros
- 10, avenue Edouard Belin BP 54032 31055 Toulouse
