JUNIA is a Graduate School of Science and Engineering offering three degree programs (HEI, ISA, ISEN). The tie that binds our programs together is a sincere focus on building a sustainable future.

JUNIA is proud to be an engineering school focused on ecological transitions, where we confront the grand challenges of today and tomorrow:
- Nourish and take care of the planet
- Accelerate energy and urban transitions
- Develop digital and industrial transition
- Reinforce health care and well-being technologies

◆ MAIN PROGRAMMES OF STUDY

◆ RESEARCH
JUNIA has over 120 faculty researchers, engineers, and technicians—as well as nearly 100 PhD students and post-doctorate researchers—on 17 research teams across our campuses. These teams research a range of subjects within our academic scope.

◆ STRENGTHS
1. Increase your employability with a transdisciplinary, whole-person education focused on active learning and hands-on experiences that make you immediately operational in the workforce
2. Build a customized, piecemeal training plan to fit your interests and career goals
3. Develop an international profile living and studying in a multicultural environment
4. Enjoy a rich and diverse student life in a vibrant city at the crossroads of Europe
5. Benefit from a robust global alumni network

◆ LOCATION
Lille - Bordeaux - Chateauroux

◆ Precise name of the institution
JUNIA - Graduate School of Science and Engineering
◆ Type of Institution
Grande école d’ingénieurs, Private Institution, not-for-profit
◆ City where the main campus is located
Lille
◆ Number of students
5,000
◆ Type and level of qualifications awarded
Bachelor and Master of Science and Engineering (diplôme d’ingénieur), MSc
◆ French language courses
Yes - French as a Foreign Language classes are integrated into the curriculum, giving JUNIA students an advantage in joining the European workforce.

◆ Programs for international students
Yes - Welcome and orientation sessions
French language classes
Personalized tutoring and advising
Guided studies and research projects
Internships for hands-on professional experience
A Career Center dedicated to supporting and advising all students in their professional goals

◆ Programs in English
Yes - HEI: Smart and Resilient Cities
ISA: Agricultural Economics, Marketing, and Management | Agricultural Science | Environmental Science | Food Science
ISEN: Big Data | Digital Health | Embedded Electronics | Software Engineering

◆ Registration fees/year
