

NANTES

ONIRIS

Oniris, National Graduate Institute of Veterinary Medicine, Food Science Engineering and Biotechnology, is a state-run establishment with degrees ranging from two-year undergraduate degree level to PhD.

Oniris has two campuses dating from the early 70's, located in Nantes - North Western France, and dedicated to training Doctors of Veterinary Medicine and Engineers in Food Science & Biotechnology.

Both campuses share the same core values, namely educating high-fly professionals concerned by global challenges of Sustainability, Food and Health.

◆ MAIN PROGRAMMES OF STUDY

- Food Science Engineering Master Level degree with four main focus areas: "Process Engineering and Product Sustainability", Research Development product innovation, Safety, Environment, Quality and Industrial Organisation, Health Biotechnologies

-International Master of Science "Project Management for Food Factories of the Future" (taught in English)

-International Master of Science in Public Health with a One Health focus (taught in English)

- Doctor of Veterinary Medicine degree (DVM)

- Master of Science in Biology, Biotechnology and Health Therapy Research

- Master of Science in Nutrition & Food Science

◆ RESEARCH

Oniris has 9 Research Units accredited by the French Ministry of Agriculture, most of which are also associated with the major National

Research Entities (INRA, CNRS, INSERM, ANSES).

Oniris carries out research activities in the fields of public health, animal health and food around four main themes:

- Agro-food Process Engineering, Management and Sustainable Development
- Food Safety and Nutrition
- Health Management in Animal Husbandry and Pet Health
- Biomedical Research and Animal Models

◆ STRENGTHS

Oniris is one of the few European institutions where Food Science Engineering and Veterinary students can interact through the concepts of One Health and Food Safety.

It is accredited by EAEVE (European Association of Establishments for Veterinary Medicine) and by CTI (Commission des Titres de l'Ingénieur), certifying the excellence of its curriculum.

Students are immersed in an innovative and creative environment thanks to platforms (a 2000 SQM Food Technology Hall, a Veterinary Teaching Hospital) and state-of-the-art facilities (Co-Design and Virtual Vet rooms).

◆ LOCATION

Oniris is located in Nantes, the main city of Western France, where agri-food industries are an integral part of the local economy.

Nantes is a 2-hour high-speed train ride from Paris, close to the Atlantic Ocean and with access to an international airport.

This vibrant city offers an excellent quality of life as well as a wide range of cultural and leisure activities.

Both campuses are easily accessible by public transport, and provide a green, quiet and ideal place to study.

IDENTITY FORM

◆ Precise name of the institution

ONIRIS- Ecole Nationale Vétérinaire, Agroalimentaire et de l'Alimentation Nantes Atlantique

◆ Type of institution

Public Establishment

◆ City where the main campus is located

Nantes

◆ Number of students

> 1100

◆ Percentage or number of international students

10%

◆ Type and level of qualifications awarded

Higher Technician Diploma
Master of Science in Engineering
Master of Science
Diploma in Veterinary Medicine (DVM)
Doctorate

◆ French language courses

Yes - On site, no additional cost

◆ Programs for international students

Yes - MSc PM3F, MCs Man-Imal, Fall Semester in Food Science (Master level)

◆ Programs in English

Yes - MSc PM3F, MCs Man-Imal, Fall Semester in Food Science (Master level)

◆ Registration fees/year (for information only)

4000€ - 12000€

◆ Postal address

ONIRIS
101 Route de Gachet
44307 NANTES Cedex 3
