

EVRY

TÉLÉCOM SUDPARIS

Telecom SudParis is a public graduate school for engineering, which has been recognized on the highest level in the domain of digital technology. The quality of its courses is founded on the scientific excellence of its faculty and on teaching techniques that emphasize project management, innovation and intercultural understanding. Telecom SudParis is part of the Institut Mines-Telecom, the number one group of engineering schools in France, under the supervision of the Minister for Industry. Telecom SudParis with École Polytechnique, ENSTA Paris, ENSAE Paris and Telecom Paris are co-founders of the Institut Polytechnique de Paris, an institute of Science and Technology with an international vocation. Its assets include: a personalized course, varied opportunities, the no.3 incubator in France, an ICT research center, an international campus shared with Institut Mines-Telecom Business School and over 60 student societies and clubs. www.telecom-sudparis.eu/en/

◆ MAIN PROGRAMMES OF STUDY

As a pioneer in project-based pedagogy and the development of entrepreneurial spirit, Telecom SudParis forms:

- General engineers,
- Specialized engineers,
- Masters of Science
- Scientific executives,
- PhD programs.

Telecom SudParis offers a wide range of training opportunities through its programs and partnerships in fields ranging from applied mathematics to networks and information systems, including electronics, image processing and multimedia.

◆ RESEARCH

At Télécom SudParis, research activities covers a broad range of areas in technology, computing and communications on the following topics:

- Digital industries
- Digital cities, intelligent transport
- Healthcare, personal assistance

- Energy, smart grids

AREAS OF FOCUS

Research activities conducted at Telecom SudParis in conjunction with companies in industry are closely connected to current issues encountered by engineering firms.

- Ad hoc and Spontaneous Networks (with Wi-Fi, Bluetooth, WiMAX, etc.)
- The Internet of Things
- Digital Imaging
- Virtual Reality
- Digital Watermarking
- Pattern Recognition
- Big Data Analytics
- System Security
- Human Behavior Modeling
- Middleware
- Pervasive Computing
- E-Healthcare
- Cloud Computing

◆ STRENGTHS

- Programs in English
- Double degree with the School of Business located on the same campus
- 15 international double degree agreements
- French language classes
- Association for International students 'Welcom'
- 1 incubator

◆ LOCATION

Our Campus is located at a few kilometers from Paris, in the city of Evry, which is one of the greenest in France. The national stage of the Théâtre de l'Agora, a swimming pool, the cinema, the conservatory... and a little further with the river Seine a sailing center!

A VIBRANT CAMPUS

In addition to its 60 student associations and its sports facilities, the campus combines on-campus student housing, classrooms, laboratories, a start-up incubator, a FabLab, accommodation and a university restaurant.

IDENTITY FORM

- ◆ **Precise name of the institution**
Télécom SudParis
- ◆ **Type of institution**
Public institution.
- ◆ **City where the main campus is located**
Evry
- ◆ **Number of students**
1 000
- ◆ **Percentage or number of international students**
40%
- ◆ **Type and level of qualifications awarded**
Master of Engineering degree,
Master of Science degree
- ◆ **French language courses**
Yes - French as a Foreign Language classes are an integral part of our programs offered to international students.
- ◆ **Programs for international students**
Yes - English track master of Engineering program (2 years)
- ◆ **Programs in English**
Yes - Master of Science program (1 or 2 years)
- ◆ **Registration fees/year (for information only)**
2024/2025
Master of Engineering: 3200€ for European and 4850€ for non-European.
Masters of Science (all except DANI): 4000€ for European and 6000 € for non-European.
Master of Science DANI: 5000€ for all.
- ◆ **Postal address**
9 rue Charles Fourier - 91011 Evry cedex
