ISIPCA, From senses to expertise

ISIPCA is a prestigious higher education institution in the field of perfume, cosmetics, and flavouring that provides French and foreign students as well as industry professionals with world-class expertise. Students work with passionate instructors who are experts in their field to gain proficiency in scientific, technical, marketing, and commercial applications. This high-level training, from 1-year diplomas to Master’s degrees, opens the door to specialised careers in key French industries such as luxury goods, cosmetics, food flavouring, and industrial perfumery. Ever since Jean-Jacques Guerlain founded ISIPCA in 1970, the school has trained professionals who have become renowned for their commitment, precision, and creativity and further expand the influence of this French expertise, the worldwide benchmark.
