

LE MANS

UNIVERSITÉ LE MANS

Located on 2 sites and within 6 components, the university offers programs at all three levels of the European degree system (bachelor, master, doctorate), as well as the master's level engineering degree (diplôme d'ingénieur), 3-year technology degrees (BUT), and numerous international joint-degree programs.

As a small university, Le Mans Université offers students a warm welcome and personal attention on its verdant campus on the outskirts of the city of Le Mans.

◆ MAIN PROGRAMMES OF STUDY

Le Mans Université is a comprehensive university that offers a wide range of academic, technical, and professional programs in sciences, technology, economics, management, law, letters, languages, the humanities, and the social sciences.

◆ RESEARCH

Every program is associated with a research laboratory, the members of which take an active part in teaching students from the licence to the doctoral level. 390 research scientists and research faculty make up 15 research teams, 6 of which are affiliated with the CNRS, recognized and supported by the French Ministry of Higher Education and Research.

Institutes (Acoustics - Graduate school, IT or Risk and Insurance strengthen the synergy between research, training and innovation.

◆ STRENGTHS

- The quality of life on campus and the proximity of all vital services.
- Attentive support for international students (help upon arrival, assistance with administrative matters, orientation classes, language support, and other services).
- Opportunities for professional and research internships offered in university laboratories and by the university's corporate partners.
- Cooperative agreements that provide for exchanges and periods of study.
- Master's level lecture series featuring professionals from industry, banking, and finance.

◆ LOCATION

The city of Le Mans is the gateway to western France (Brittany and the Loire Valley). Its dense network of roads and rail place it less than an hour from Paris and an hour and a half from Nantes, Rennes, and the Atlantic coast. The city has a particularly rich historic and artistic heritage.

IDENTITY FORM

- ◆ **Precise name of the institution**
Le Mans Université
- ◆ **Type of institution**
Public
- ◆ **City where the main campus is located**
Le Mans
- ◆ **Number of students**
12 000
- ◆ **Percentage or number of international students**
1 900 (15%)
- ◆ **Type and level of qualifications awarded**
LMD - Engineering degree - BUT
- ◆ **French language courses**
Yes - Free evening classes, summer session (language and culture), academic preparation
- ◆ **Programs for international students**
Yes - Preparatory classes in language and study methods (8,16, 24, and 30 weeks)
- ◆ **Programs in English**
Yes - Master acoustique parcours International Master's Degree in ElectroAcoustics
- Master acoustique parcours International Master's Degree in Wave Physics
- ◆ **Registration fees/year (for information only)**
170 to 4500 euros depending on degree
- ◆ **Postal address**
Avenue Olivier Messiaen
72085 Le Mans cedex 9
FRANCE
