Richly diverse through its disciplines, Université de Lorraine pursues a wide range of international activities: in- and outbound student, PhD, academic & research staff exchanges – degree programs offered jointly with other institutions (including several Erasmus Mundus master’s programs, co-tutelle, International joint labs, international & European research groups).

The university is a major force in the economic and social development of the region Grand Est and cross-border cooperation (Germany, Belgium and Luxembourg).

With five centuries of history, Université de Lorraine is also a pioneer in the collaboration between arts, technologies, and industry, as embodied today in innovative projects such as ARTEM, the Institut Jean Lamour, the Institut Lafayette, and the Biopolé, among others by crossing approaches to answer societal challenges.

**MAIN PROGRAMMES OF STUDY**

Université de Lorraine has 42 academic departments, schools of engineering, and institutes. These are organized by field of study into colleges. 9 colleges span the range of disciplines offered at the university:
- Arts, letters, and languages
- Law, economics, and management
- Lorraine INP (engineering)
- Lorraine Management Innovation
- Interface
- Health
- Science and technology
- Humanities and social sciences
- Technology (8 university-affiliated institutes of technology).

**RESEARCH**

Research at Université de Lorraine is organized into 10 clusters:
- Agronomy, food-processing, forestry (A2F)
- Automatics, Maths, Computer Sciences and Interactions (AM2I)
- Biology, medicine, and health (BMS)
- Consciousness, language, communication, and society (CLCS)
- Molecular chemistry and physics (CPM)
- Energy, mechanics, processes, and products (EMPP)
- Matter, materials, metallurgy, and mechanics (M4)
- Observatory Earth and Environment of Lorraine (OTELo)
- Law, politics, economics, and management (SJPEG)
- Time, space, literature, and language (TELL)

**STRENGTHS**

Our research centers are active in all scientific fields, with areas of excellence emerging in the areas of:
- Natural resources, energy, and materials
- Language and knowledge engineering, and
- Molecular engineering and technologies for health.

Intense partnerships with national public research organizations and with industry.

**LOCATION**

Located at one of Europe’s busiest crossroads, Université de Lorraine is close to the borders of Germany, Belgium, and Luxembourg and just a 90 minute train ride from Paris.

**IDENTITY FORM**

- Precise name of the institution: Université de Lorraine
- Type of institution: Public
- City where the main campus is located: Nancy et Metz
- Number of students: 60 000
- Percentage or number of international students: 16%
- Type and level of qualifications awarded: LMD - Other national diplomas: DUT, engineering (diplôme d’ingénieur), state-sanctioned medical and paramedical degrees, Institution-specific degrees: DU - Other degrees and diplomas: Certificate of qualification, preparation for national postsecondary teaching exam, specialized graduate diploma in health
- French language courses: Yes - French language courses are available all year long.
- Programs for international students: Yes - 6 one term semester courses are available for foreign students (undergraduates)
- Programs in English: Yes - 13 Master degrees, 1 bachelor, 5 terms (Networks & Digital communication, Electrical Engineering, Quality Management, Mechanical & Production Engineering, Civil Engineering)
- Registration fees/year (for information only):
- Postal address:
  - 34 Cours Léopold - CS 25233 - 54052 NANCY Cedex France
