

# UNIVERSITÉ GUSTAVE EIFFEL

Université  
Gustave Eiffel

CHAMPS-SUR-MARNE

## ◆ STRENGTHS

The founding bodies of the Gustave Eiffel University share three major engagements:

- A constantly renewed educational investment

- A link between teaching and research
- Professionalization through apprenticeship and a close cooperation between the academic and the socio-economic world.

The training offered is both for basic training and PhD students and adults returning to education within the framework of a continuing education and VAE (Validation of Prior Experience). The proximity of the university with Companies grants it a privileged place with these partners, as they are to cater for special educational needs. The cross-fertilization of competences, due to the diversity of its components, makes Gustave Eiffel University a privileged actor in the long-life learning and apprenticeship education.

To support this policy, the university has implemented a Center for Expertise, Research and Education dedicated to educational innovation and digital uses (CIPEN)

## IDENTITY FORM

### ◆ Precise name of the institution

Université Gustave Eiffel

### ◆ Type of institution

Public

### ◆ City where the main campus is located

Champs-sur-Marne

### ◆ Number of students

17 000
