Université Paris Diderot is the leading multi-disciplinary university operating in the international knowledge and innovation economy in France.

◆ MAIN PROGRAMMES OF STUDY
Most of the university's courses cover all levels (LMD) in its main fields of studies:
- Science: Mathematics, Physics, Chemistry, Life Sciences, Information Technology, Earth and Environmental Sciences.
- Literature and Humanities: European and eastern languages, Social sciences, Philosophy and Science history, History and Geography, Psychanalytics.
- Health: Medicine and Odontology.
- Denis Diderot selective engineering school: physics and information technology engineering.

◆ RESEARCH
The University research units represent one of the two largest public research centres alongside large bodies such as CNRS, INSERM and CEA. The university also shares many Mixed Research Units (UMR) with these bodies. Research covers the three main fields of study: teams interact, while each maintaining their own clear particularities: Health, Applied Sciences and Humanities and Social Sciences.
- 92 laboratories
- 2,000 researchers, including 1,400 faculty/researchers
- 1,833 Ph.D students allocated to 17 Doctoral Schools
- 400 theses/year (including 80 international co-supervised theses)

◆ STRENGTHS
- Innovative teaching methods
The University has developed innovative programs in the fields of Applied Modern Languages, Economic and Social Sciences, Mathematics Applied to Social Sciences, Bio-IT and Pediatric Pharmacology, to name just a few.
- Interculturality
Université Paris Diderot also offers a wide range of international programs leading to a Dual qualification or Joint bilingual qualification, as well as international programs taught entirely in English: English Studies, Applied languages, Contemporary history and Archaeology, Chemistry, Genetics, Physics, Bio-IT, Life Sciences.
- International
Over the last four decades or so, Université Paris Diderot has implemented an international policy aiming to develop its research and training activities based on partnerships in most large geographic sectors, particularly Europe, Latin America and Asia-Oceania.
The University has currently concluded 1368 exchange agreements with 314 partner organisations in 53 countries.

◆ LOCATION
The university is located in an area, which is expanding rapidly, near to the Bibliothèque Nationale de France, and actively contributes to events in the Paris Rive Gauche district.

◆ Precise name of the institution
Université Paris Diderot
◆ Type of institution
Public
◆ City where the main campus is located
Paris
◆ Number of students
33 900
◆ Percentage or number of international students
17%
◆ Type and level of qualifications awarded
Licence - Master - Ph.D / Master in Engineering / University Diploma
◆ French language courses
Yes - Département FLE : https://international.univ-paris-diderot.fr/etudier-paris-diderot/perfectionner-son-francais
◆ Programs for international students
Yes
◆ Programs in English
Yes - International programs : https://international.univ-paris-diderot.fr/formations-internationales-doubles-diplomes
◆ Registration fees/year
(for information only)
Fees : 285 up to 600 €
◆ Postal address
Université Paris Diderot - Paris 7 - 5 rue Thomas Mann FR - 75205 Paris Cedex 13
